The Organization of the Modules

ACVA's Level I and II course online consist of 10 modules each. Each module is three weeks long with a two-week or more break in-between each interactive online classroom session. This integrated and interactive program is designed to keep the student engaged, motivated and excited on their journey to learn more about Vedic astrology. Working with fellow students and their instructor, via our unique ACVA Online discussion board, allows for very rich and dynamic exchanges and deeper learning opportunities. Each module is personally guided by an experienced Jyotish instructor, trained in online learning teaching methods developed by ACVA Online's instructional designers. ACVA Online's teaching strategy allows the learner to study with experienced and trained instructors with diverse Vedic astrology backgrounds. Interactive learning checks and other innovative learning activities help the student master Jyotish concepts and terminology. Early in the Level I course, students are encouraged to start looking at natal charts. After the fourth module, learners begin to evaluate and interpret natal horoscope charts.

A Jyotish Community Design, Online

The design of the ACVA Online is to provide a small and intimate setting. This allows for more individual instructor attention and fosters a supportive team environment.

We at the American College of Vedic Astrology Online realize that in order to become successful, one must have the backing of a community of experienced and supportive teaching staff, graduates and fellow students.

What Our ACVA Online Students Are Saying

This is my first on-line course and it's awesome. ACVA has done an incredible job in compiling in-depth material in an understandable format for the beginner. The site is easy to navigate, even for beginners like me. - A.H., Sammamish, WA

After signing up for a few webinars I have realized that current technology really enables a student abroad to learn online. I have decided to take my interest in vedic astrology seriously and would like to sign up for the next online vedic astrology course starting in March. J. H., Milano, Italy

I appreciate the class structure in terms of partnered/peer communication as I feel a part of the group...a sense of belonging and/or team within my day-to-day human interactions is a beautiful feeling for me. - A.B., Torrington, CT

I am very impressed with this program. It's well-thought out and organized. The modules are simple and short, yet contain all the needed info. The instructors were great, and everyone has been extremely helpful. I've had a lot of experience with institutions of education, and this is definitely the best I've had. - R. Busby, Seattle, WA

Bravo to ACVA ~ I am very impressed as well. So much so that I interested in returning for Level II at the right time. All instructors were great and ACVA Online is the tops. In appreciation, Om Shanti. A. S. - Quincy, CA
